Presented by

THE ANNUAL STAFF

of

PAMLICO COUNTY HIGH SCHOOL

Bayboro, North Carolina

Co-Editors Fred Wayne
Remona Whealton

Business Mgr. Iris Newton

Advisor Mrs. Pauline Braswell

Memories of our year as Seniors include time spent in the company of friends, hard, but rewarding work as individuals and as a class. In this edition of the PAMLICOAN, we hope to interpret these memories for you.

DEDICATION

With the deepest appreciation and gratitude for your guidance, teaching, and most of all your friendship, we, the Senior class of 1961 proudly and humbly dedicate this edition of the PAMLICOAN to our Mrs. Swindell. As we part this year we will forever hold within our hearts your everlasting smile and the twinkle in your eyes. May your retirement be filled with only the joys of life.

Mrs. Marie Swindell

SUPERINTENDENT

Mr. George William Harriett
Superintendent of
Pamlico County Schools

Mr. Troy Potter
Chairman, Pamlico County
Board of Education

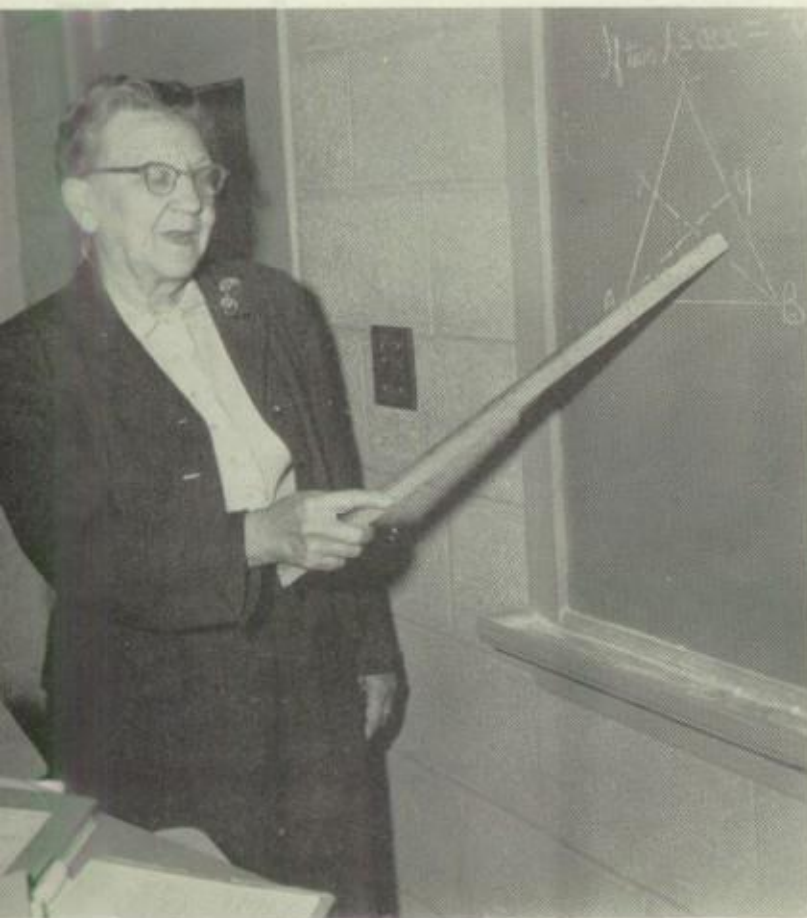

Mr. Leslie Whorton
Chairman, Local Committee

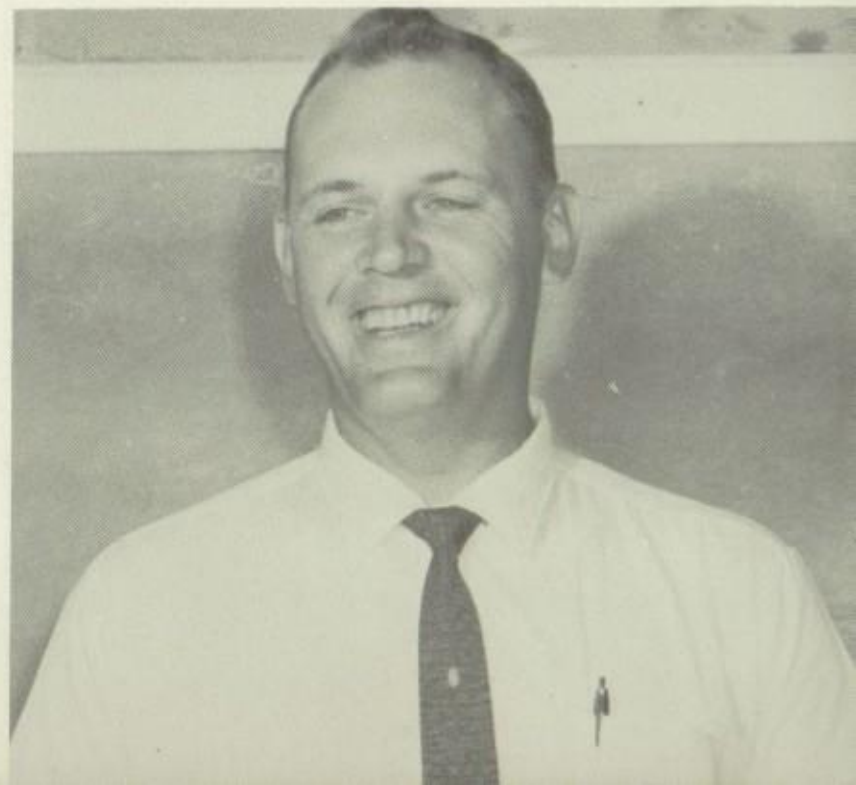

One of the most important elements in a good school is good teachers. For this reason we know that we have an excellent school.

We will remember the discipline that was taught us by writing sentences--

--the personal attention that we received, the clear explanations and the sense of humor that was sometimes displayed.

The simple "Thank You" we offer to them seems inadequate for all they have done for us.

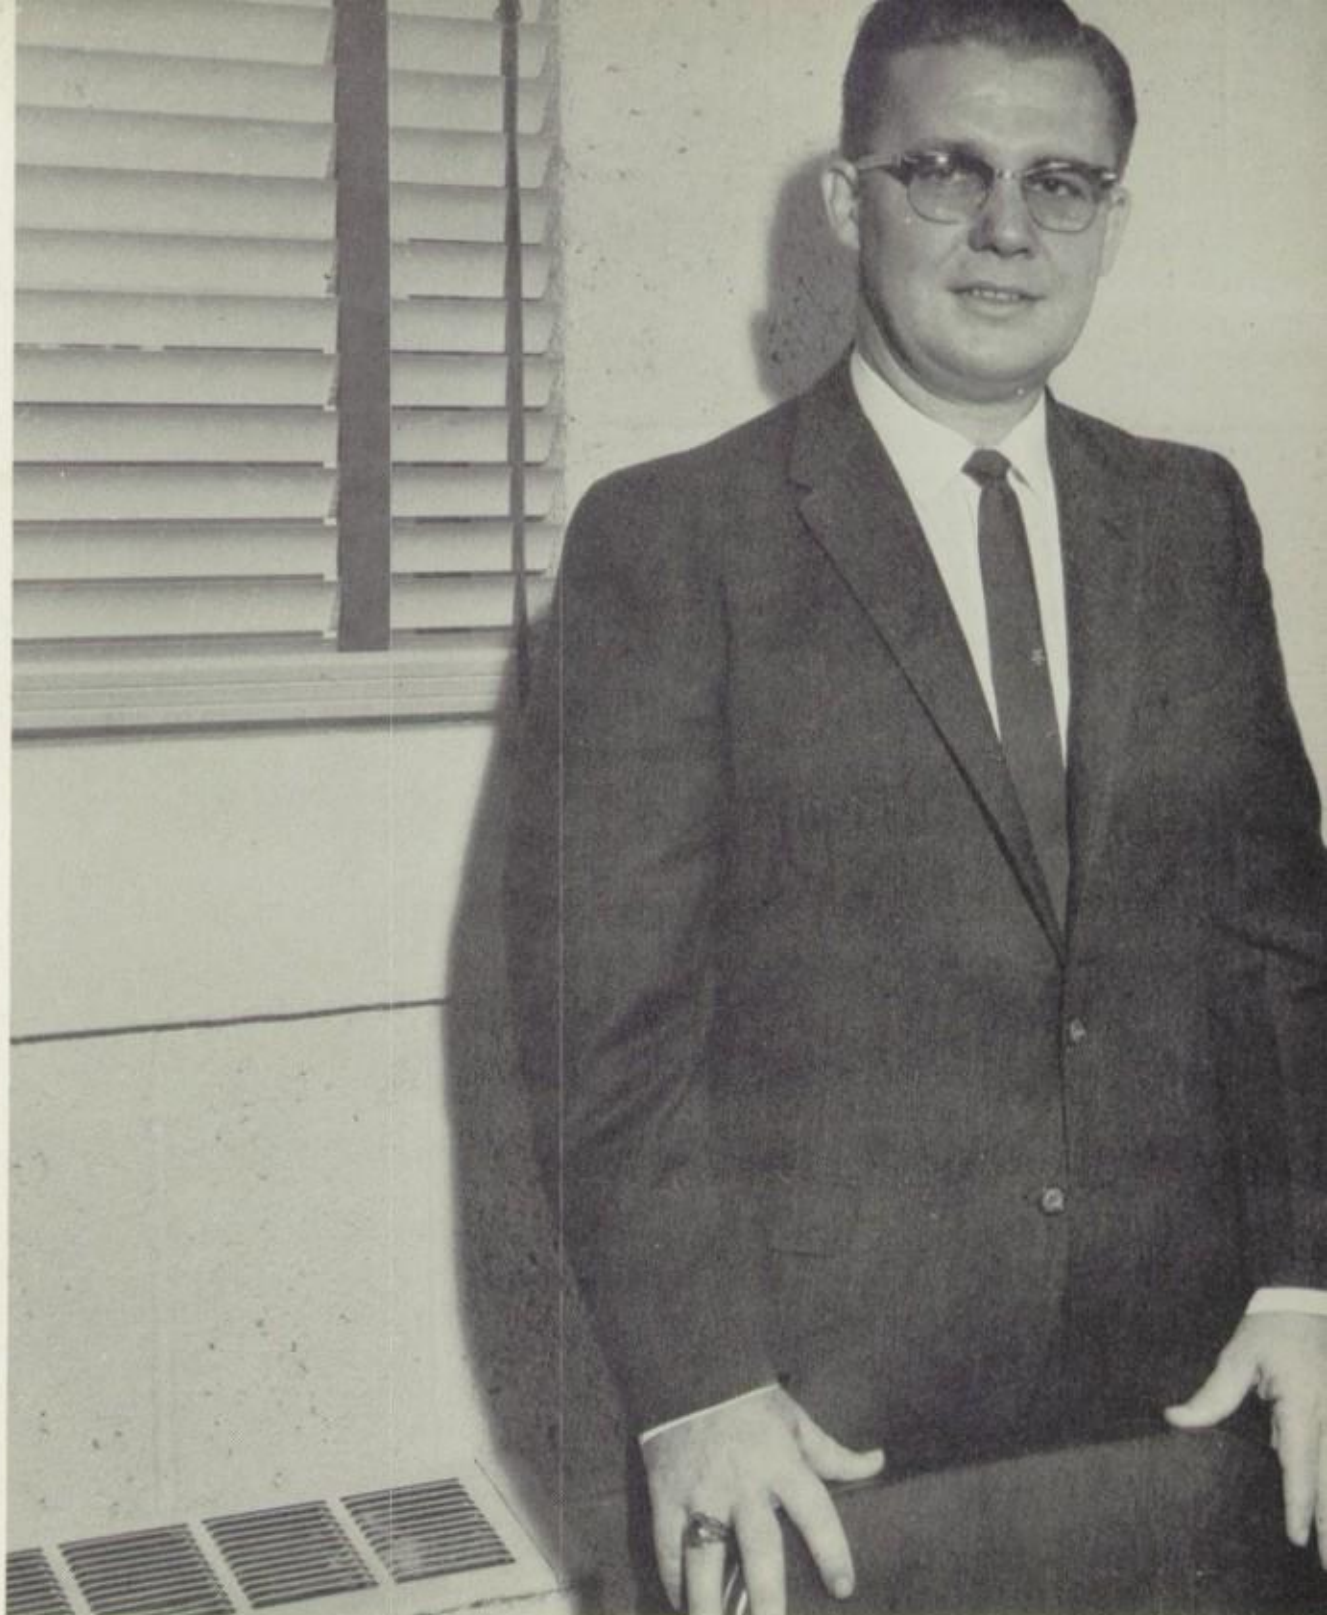

Mr. Manford B. Weaver

Principal of Pamlico

County High School

Fairmont State College, A.B.

West Virginia University, M.A.

FROM THE PRINCIPAL'S DESK

We give our schools awesome assignments. From the most diverse materials-malleable, refractory, explosive, we expect them to fashion uniformly superior products. We ask them to tame the rebellious, embolden the timid, spur the laggard, sharpen the dull, burnish the bright. We ask them to make every child good, healthy, competent, happy and useful.

We ask our schools to be the nation's first line of defense, the cradle of democracy, the forge of national unity, the generator of economic productivity, the seedbed of talent, and every child's highway to self-realization and the good life.

What we ask of our schools, however, audacious our demands, they try valiantly to do. Understaffed, underfinanced, overburdened, they have nevertheless written a record of impressive achievement. Our schools are the nation's pride and the nation's scapegoat. In the past decade they have been praised extravagantly, criticized mercilessly, blamed unreasonably. If we would strengthen our schools for the sixties, let us reassess their assignments, set reasonable expectations, and provide the resources they need. Let us praise our schools justly, and soberly appraise our own efforts to support them.

"Memories of the year include the thrill of seeing our team win, the fun of relaxing at a party, the hard work that was rewarded by victories, the agony of wondering if that speech was really good, and the knowledge that the remarkable experiment would certainly explode if the wrong amount were added."

PAMLICOAN

Our sincere thanks go to Mrs. Pauline Braswell, our advisor, who has worked with us and helped us in all we accomplished.

We sold an ad and then we rested!

Putting up a billboard is not necessarily hard work.

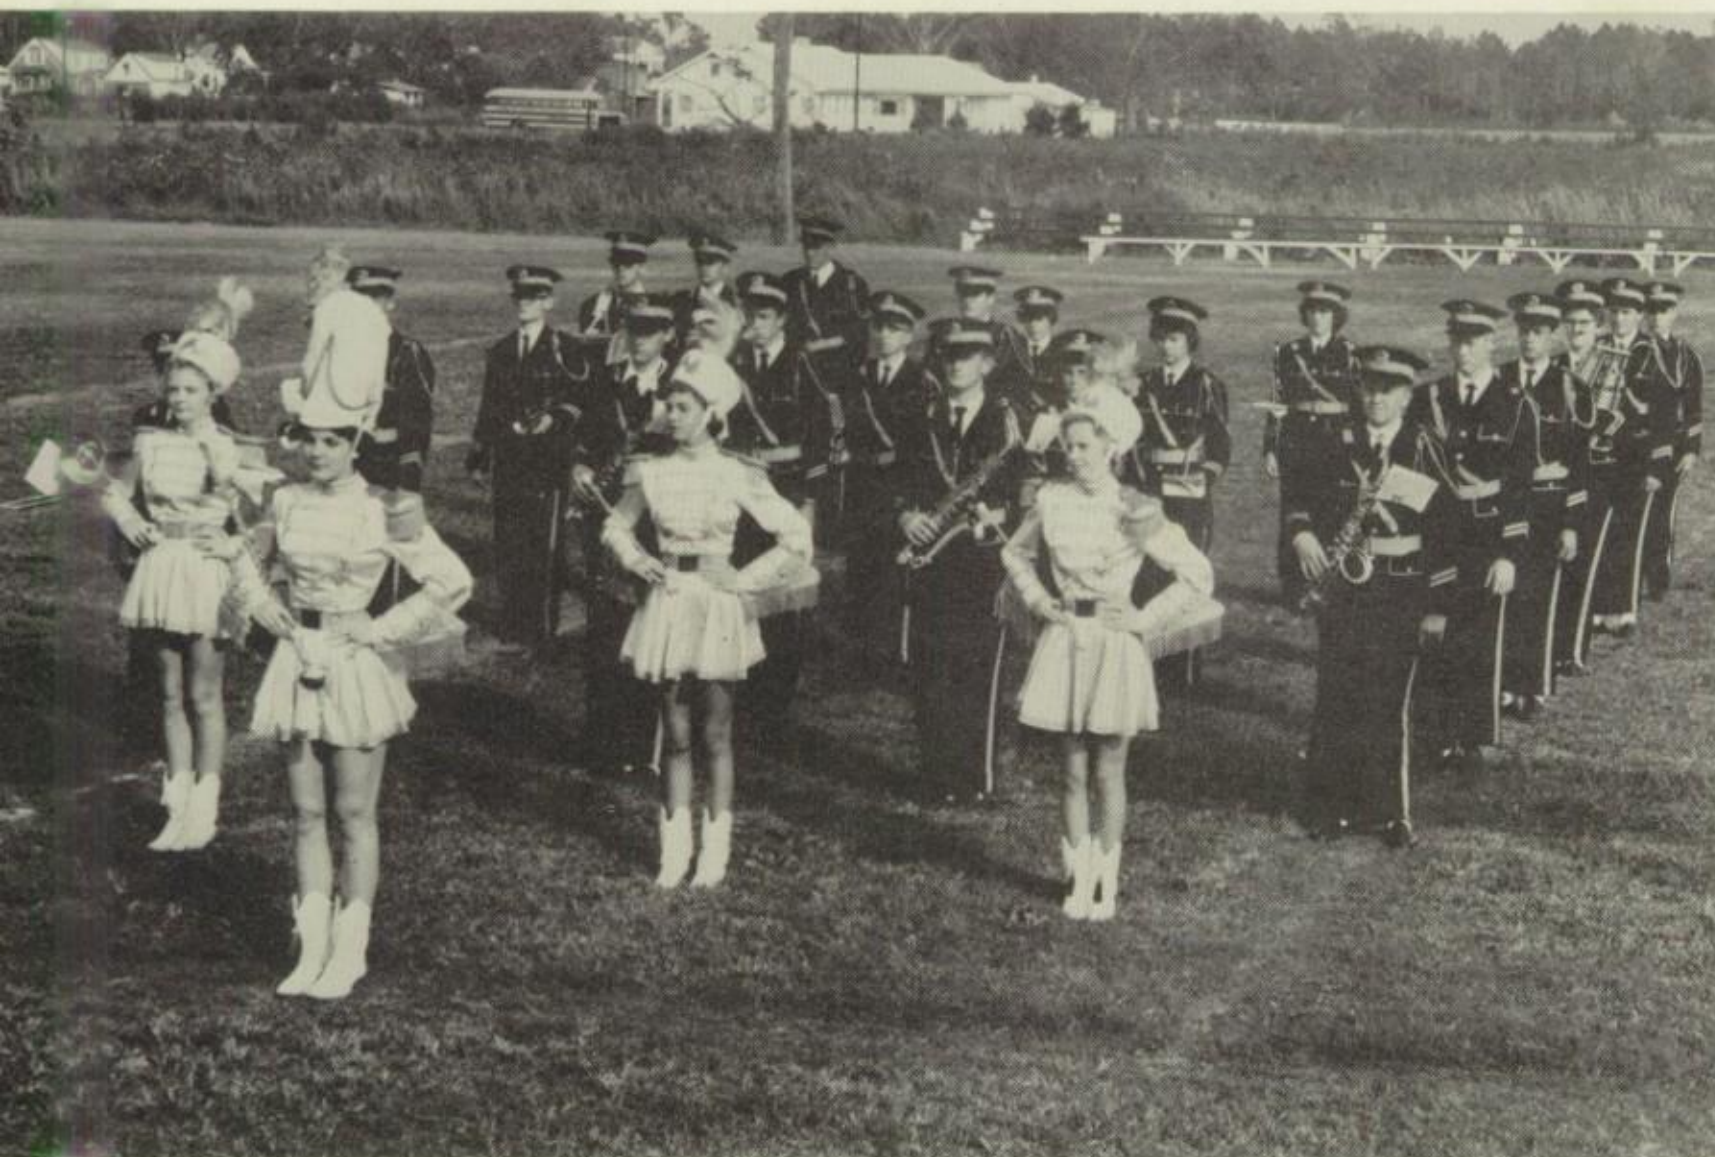

Many hours were spent in the peace and quiet of the annual room?

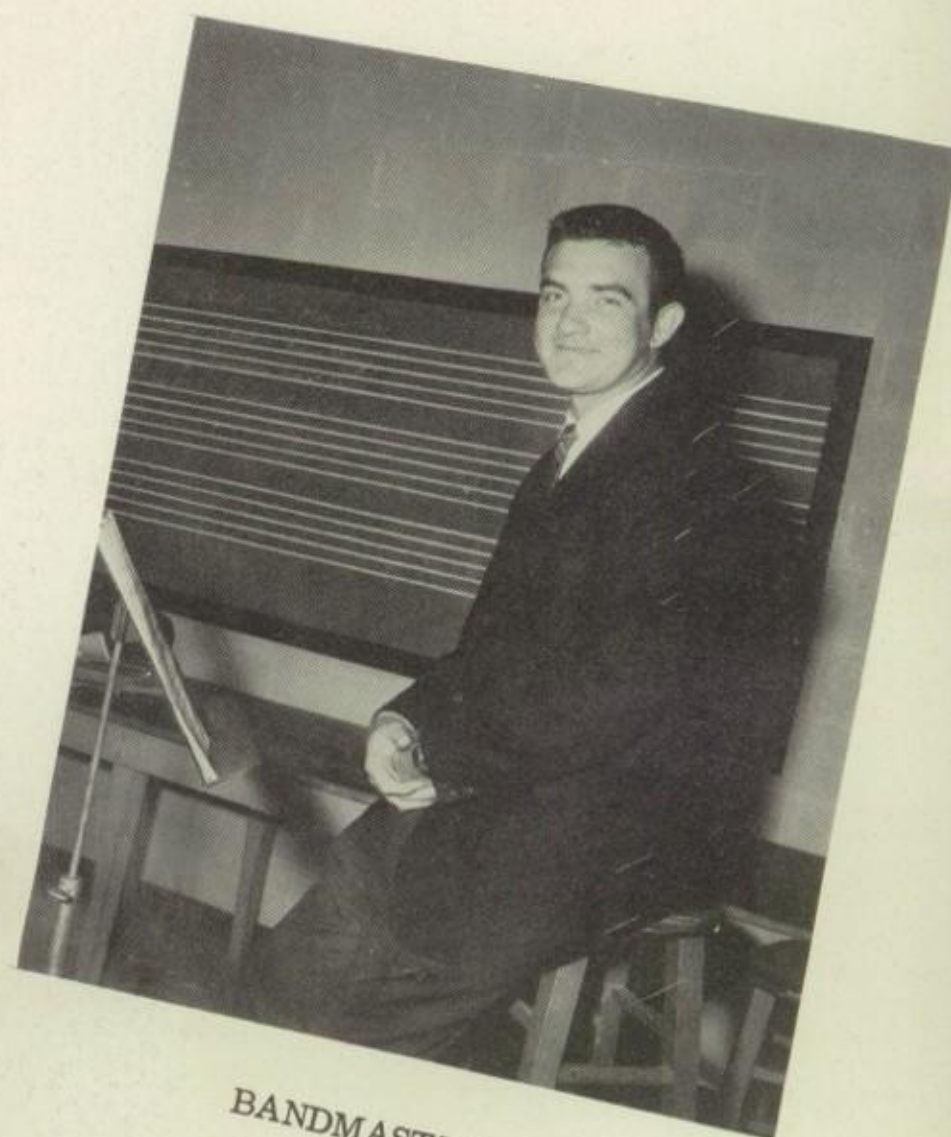

We typed so many letters!

The members of the band practice hard so that they will be able to play their best at football games, parades, and concerts. We are proud to be able to say, "There goes our band," when they go marching by. The figures formed by the band may look simple to those who observe, but many hours of work and practice go into planning and executing them.

FOOTBALL

This year the football team, under the direction of Coach Carson, gave a new experience to the students of Pamlico High. This experience was that of having a winning team. The reason for this astounding feat has not been explained as yet, but two suggestions were: the team was just good, or the students gave them more inspiration to win. No matter what the real reason was, this year will be remembered as the year our team was a winning team.

Memories of school include not only studies but also other activities. Some of the most unusual of these activities include standing on our heads for sheer joy, defying the law of gravity, spraining our arms and breaking our legs, and counting the number of boards in the floor.
